# Rainbow Conversions Ltd: VW T5—Oasis

Superflat elevating roof by Reimo.  
We use this elevating roof on the T5 as  
it's the best on the market.  
The optional roof bed system gives  
ample space for two adults.  
With removable panels with flyscreens  
fitted into the side panels of the canvas  
this is the best place to sleep on a warm  
summers night to enjoy the view

The Seat / Bed system slides on tracks fitted to the floor which makes the change from seats to bed as easy as possible in a vehicle of this size with no cushions to shuffle around.

Blinds are fitted to the windows meaning no more curtains draping in the way whilst you relax and make use of the wide range of facilities. From a safety perspective there are no curtains around the cab to hinder you whilst you drive.
