All prices include VAT

Full conversion

The **Volkswagen T4** like its predecessors has come to have an almost universal standard layout, a design with the furniture along the off side from behind the drivers seat along to the rear doors or tailgate. This coupled with a forward facing bench seat / double bed across the vehicle, positioned just behind the line of the Side Load Door.

This seems to be the best option for this vehicle and has been adopted by almost all major manufacturers. Unlike most companies our conversion specifications are not set in stone with a 'take it or leave it' rigid design. We prefer to stick to the standard layout but each van is bespoke built to the individual customers requirements giving as much flexibility as possible to the finished product. Offering a choice of colour for lining, fabric and furniture boards. (obviously there are limits to what can be done to this or any other vehicle as the conversion ultimately needs to be practical and above all safe). We like to give as much choice as possible to the style in which the furniture is constructed, but always use laminated light-weight ply boards whatever the chosen style.

Full Conversion prices

We try to be flexible , but as we need to give an indication of prices ,these are guide prices for the differing conversions available

Standard furniture in a fixed roof conversion from including VAT	£6,195.00
Standard furniture in a high top roof conversion from including VAT	£7,895.00
Standard furniture in an elevating roof conversion from including VAT	£8,295.00

All the above have a Reimo Variotek bench seat with lap belts.

We can also build weekender style vehicles with full width bed, but would need to discuss all requirements before giving a price.
